Meteorologist's View

UV levels will be high, therefore extra protection will be required for spending any length of time walking or hiking on the hills and peaks. Pollen levels will be very high, which isn't good news for hayfever sufferers.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

14:00 on Wed 07 Jul 2021	8mm	28.8mm	43.8mm

Forecast for Friday 09 Jul 2021

Weather: Dry with some patchy low cloud on the summits overnight, but otherwise, clear spells. Largely dry with bright or warm sunny spells developing from mid-morning onwards. There is the chance of a few isolated light showers developing during the afternoon, mainly towards the east.

Maximum wind: North to northwesterly 5mph at first, becoming west to southwesterly 5-10mph from mid-morning.

Chance of cloud free mountain/hill tops above 600m: 40% chance during the morning, improving to greater than 90% from mid-morning. Slight lowering of cloud bases on the summit in any showers during the afternoon.

Visibility: Good or very good throughout. Some minor deteriorations in any showers during the afternoon.

Temperature: **Valleys:** Plus 14 Celsius becoming 20 Celsius.
At 600m: Plus 11 Celsius becoming 15 Celsius.
Freezing level: Above the summits.
